

## ***Student Forum***

The Student Forum offers occupational therapy students a valuable opportunity to engage with prospective employers, graduates and Occupational Therapy Association.

It will inform students on career opportunities, expectations of Managers, do's and don'ts of job applications and the transition from student to practitioner. The forum will be interactive and give participants the chance to ask questions of the panel of managers and senior clinicians. Attendance at the forum includes access to the exhibition hall during afternoon tea giving the opportunity to network and visit exhibitors. This event is included in Student Conference registration fee and Thursday day registration.
